How did you hear about the ibstpi competencies?

International Board of Standards for Training, Performance, and Instruction

I am inquiring about (check where relevant):

- Instructor Competencies (2003)
- Instructional Designer Competencies (2001)
- Training Manager Competencies (2003)

Is permission sought to reproduce the competencies for internal use or external use or both?

- Internal Use Only
- External Use Only
- Internal and External Use

Please explain in reasonable detail how you wish to use the competencies. If for use in a publication, indicate number of copies, audience and method of distribution. If for use in a for-profit capacity (whether internal or external use) indicate clearly how you intend to use the ibstpi material.

Because we are interested in seeing how our intellectual property is used, we may request a copy of whatever you develop. It will remain with ibstpi and will not be shared with any other person, organization, nor posted anywhere. Please indicate if you are willing to forward a copy of what you develop, if requested.

- Yes, I will share a copy of our materials if requested by ibstpi
- No, I will not provide ibstpi with a copy because (provide reason)
